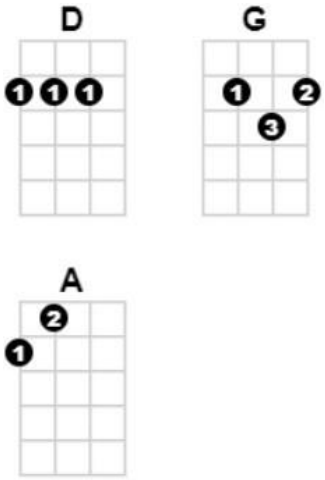
Old Time Rock And Roll by Bob Seger



```
[Intro]
D G A D G A

                              D
Just take those old records off the shelf
                              G
I'll sit and listen to them by myself
                        A
Today's music ain't got the same soul
                         D
I like that old time rock and roll

A                            D
Don't try to take me to a disco
                             G
You'll never even get me out on the floor
                           A
In ten minutes I'll be late for the door
                         D
I like that old time rock and roll

A                          D
Still like that old time rock and roll
                           G
That kind of music just soothes the soul
                          A
I reminisce about the days of gold
                        D
With that old time rock and roll

A                                D
Won't go to hear them play a tango
                                   G
I'd rather hear some blues and funky old soul
                                 A
There's only one sure way to get me to go
                           D
Start playing old time rock and roll

A                            D
Call me a relic, call me what you will
                                   G
Say I'm old fashioned, say I'm over the hill
                         A
Today's music ain't got the same soul
                         D
I like that old time rock and roll

A                            D
Still like that old time rock and roll
                           G
That kind of music just soothes the soul
                          A
I reminisce about the days of gold
                        D
With that old time rock and roll
```
